Good to know

Keep this guide: it helps again with a new key or a new computer.

When you get a new License Key

A renewal, or a full licence after the trial: open FACT, on Home select **License Key** ①, paste the new key ② and select **ACTIVATE** ③. Your data stays as it is.

Always close with Logout

Close FACT with **Logout** on Home. FACT then saves your work and closes properly.

Your FACT folders

- **Your FACT folder** (with FACT.xlsm) – FACT.exe and your data
- **FEED STORE** – your saved rations
- **BACKUP** – copies of your data

FEED STORE and BACKUP are the folders one level up, as with your Excel FACT.

A new computer?

Your key works on one computer. For a new computer, install FACT there and send us its **Machine Code**.

Keep a backup

Copy your FACT folder (with FEED STORE and BACKUP) to a USB stick or Google Drive from time to time.
